**Stakeholder consultation process on Post-2020 carbon leakage provisions for the EU Emissions trading system; European potash industry**

Dear Madam, Dear Sirs,

The European Commission, Climate Action, organizes a stakeholder consultation process on Post-2020 carbon leakage provisions. The Commission intends to continue with an improved and better focused system of free allocation in the scope of the new policy framework.

APEP, the European Potash Producer's Association, is highly interested in actively participating in the stakeholder consultation process.

For this purpose APEP will appoint

[REDACTED]

as delegate of one of its members.

The Union potash industry, belonging to the mining and fertilizer industry, is part of the current Carbon Leakage List and possibly will be included in the next CL list for the period 2015 to 2019.

APEP is listed in the transparency register of the EU Commission<sup>1</sup>. One of APEP's major objectives according to its statutes is the environmental legislation in the European Union, including climate and energy. APEP is capable of acting as experienced and competent consultant in these matters.

The invitation to the three stakeholder meetings should be dispatched directly to

[REDACTED]

Mr. [REDACTED] and experienced in discussions with the European Commission.

Many thanks in advance for taking APEP and its members into consideration with regard to the stakeholder meetings. Should you have any questions please do not hesitate to contact either [REDACTED] or the undersigned, acting as legal adviser to APEP. You are kindly asked to confirm the receipt of this letter and to indicate the name of the Civil Servant, who could be contacted by APEP.

Yours sincerely,

Association of European Potash Manufacturers
