**Subject:** Revision of the Directive 2003/87/EC to Enhance Cost-Effective Emission Reductions and Low-Carbon Investments

Dear [REDACTED],

Thank you for the letter dated 8 February 2017 regarding the ongoing revision of the Directive 2003/87/EC (EU ETS Directive) and the position of the Association of European Potash Producers in the context.

We take note of your position paper and the expressed interest in having a discussion with the Commission on the topic. I would however underline that at the moment the legislative process regarding the revision of the EU ETS Directive is ongoing.

Therefore, we would suggest discussing the implementation details at a later stage, once there is clarity about the legislative framework for the Phase 4 of the EU ETS. In the preparatory work regarding the implementation legislation for the EU ETS Phase 4, we will of course consult relevant stakeholders with a focus on the various technical aspects to decide.

Kind regards,

[REDACTED], ETS Implementation
