17 February 2017

Dear Mrs. Jülicher,

Thank you for taking a few minutes earlier today to discuss the Biocides Products Regulation (528/2012) with me.

As discussed, I would appreciate understanding the basis for extending the scope of the Commission's proposed criteria for the identification of endocrine disrupting substances to cover "substances" rather than "active substances". Moreover, I would like to understand precisely what is meant by "substances" in the context of Regulation 528/2012.

We look forward to receiving your response so that we can share it with our member companies who require clarification on these aspects of the latest Commission proposal for the criteria to identify endocrine disrupting substances within the Biocides Products Regulation (528/2012).

Many thanks for your help.

Yours sincerely,

Peter Smith

Executive Director Product Stewardship
