Meeting CCIA and DG GROW, 26 April, 2017, 11.00 – 11.30h

Attendees: [REDACTED], [REDACTED] (CCIA), [REDACTED], [REDACTED] (01, DG GROW)

Topics discussed:

- Upcoming communications on Data economy issues
- Mid-term review of the Digital Single Market strategy, including the progress made and further actions on online platforms, data economy and cybersecurity. Since May 2015, the European Commission has delivered 35 legislative proposals and policy initiatives as announced in its Digital Single Market strategy. We discussed the current challenges on obtaining political agreement with the European Parliament and the Council on all proposals, above all the updated EU telecoms rules which will boost investments in high-speed and quality networks, which are critical for the full deployment of the digital economy and society.
- The evaluation of Product Liability Directive. The Product Liability Directive is the key piece of legislation in the European Union's product liability regime and aims to harmonise the law of member states concerning the liability of producers caused by defective products. The purpose of the evaluation is to assess the functioning and performance of this principle amongst member states, seeking to identify gaps or overlaps in its scope and possible shortcomings in its application. We discussed the interest of the CCIA members in this evaluation and urged them to participate in upcoming the public consultation.
