**Subject:** RE: CoE work track on internet intermediaries

Dear (HOME)

As I told you in the phone, following internal coordination, COM sent a commented version to the COE which I just forwarded you.

On top of that, a number of MS made comments in Strasbourg that echoed the concerns that had been expressed in CATS, namely that this would have been very detrimental to EU policies in fighting child sexual abuse online and terrorist content.

So, thanks mostly to the discussion in CATs we have been able to steer this development in a positive direction.

Thanks for your support in this process!!

Kind regards,
