Subject: BTO meeting with Plastic Europe on BPA /Cabinet - Summary of discussion

Participants Europlastic : [REDACTED] (Bayer), [REDACTED] (Plastics Europe), [REDACTED] (SABIC)
COM/SANTE : N. Chaze, [REDACTED]

1. Participants expressed European industry's concerns about the very negative effects on industry of FR ban :

- industry in France adapted to French market to comply with new law (costs incurred /no internal market);
- substitutes of BPA in plastics not performing (water coolers in particular not as strong - will probably be produced with the substitutes for the whole of EU);
- substitutes of BPA in can coatings not performing either (forcing down the shelf life of food)

2. Further to COM request, Europlastic will provide SANTE with figures and evidence on (i) shelf life and on (ii) substitutes actually used (for the non harmonised can coatings) clarifying which are approved under EU plastic legislation (for plastics)

3. COM encouraged Europlastic to keep the dialogue as COM works on a solution in light of EFSA opinion
