- (1) In order to accommodate new initiatives in the field of tax transparency at the level of the Union, Council Directive 2011/16/EU³ has been the subject of a series of amendments over the last years. In this context, Council Directive (EU) 2014/107⁴ introduced a common reporting standard (CRS) for financial account information within the Union. The standard that was developed within the OECD prescribes for the automatic exchange of information on financial accounts held by non-tax residents and establishes a framework for this exchange worldwide. Directive 2011/16/EU was amended by Council Directive (EU) 2015/2376⁵ which provided for the automatic exchange of information on advance cross-border tax rulings and by Council Directive (EU) 2016/881⁶ which provided for the ~~disclosure and the~~ mandatory automatic exchange of information on country-by-country reporting (CbCR) of multinational enterprises between tax authorities. Being aware of the use that anti-money laundering information can have for tax authorities, Council Directive

³ Council Directive (EU) 2011/16 of 15 February 2011 on administrative cooperation in the field of taxation (OJ L 64, 11.3.2011, p. 1).

⁴ Council Directive (EU) 2014/107 of 9 December 2014 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (OJ L 359, 16.2.2014, p. 1).

⁵ Council Directive (EU) 2015/2376 of 8 December 2015 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (OJ L 332, 18.12.2015, p. 1).

⁶ Council Directive (EU) 2016/881 of 25 May 2016 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (OJ L 146, 3.6.2016, p. 8).

(EU) 2016/2258⁷ placed an obligation on to Member States to give tax authorities access to customer due diligence procedures applied by financial institutions under Directive (EU) 2015/849 of the European Parliament and of the Council⁸. Although Directive 2011/16/EU has been amended several times in order to enhance the means tax authorities can use to react to aggressive tax planning, there is still a need for reinforcing certain specific transparency aspects of the existing taxation framework.

- (2) Member States find it increasingly difficult to protect their national tax bases from erosion as tax planning structures have evolved to be particularly sophisticated and often take advantage of the increased mobility of both capital and persons within the internal market. These structures commonly consist of arrangements which are developed across various jurisdictions and move taxable profits towards more beneficial tax regimes or have the effect of reducing the taxpayer's overall tax bill. As a result, Member States often experience considerable reductions in their tax revenues which hinder them from applying growth-friendly tax policies. It is therefore critical that Member States' tax authorities obtain comprehensive and relevant information about potentially aggressive tax arrangements. This information would enable those authorities to be able to promptly react against harmful tax practices and to close loopholes through enacting legislation or by undertaking adequate risk assessments and carrying out tax audits. No reaction by tax authorities against a reported scheme should not however imply clearance.
- (3) Considering that most of the potentially aggressive tax planning arrangements span across more than one jurisdiction, the disclosure of information about those arrangements would bring additional positive results where that information was also exchanged amongst Member States. In particular, the automatic exchange of information between tax authorities is crucial in order to provide these authorities with the necessary information to enable them to take action where they observe aggressive tax practices.
- (4) Recognising how a transparent framework for developing business activity could contribute to clamping down on tax avoidance and evasion in the internal market, the Commission has been called on to embark on initiatives on the mandatory disclosure of potentially aggressive tax planning arrangements along the lines of Action 12 of the OECD Base Erosion and Profit Shifting (BEPS). In this context, the European Parliament has called for tougher measures against intermediaries who assist in arrangements that may lead to tax avoidance and evasion. It is also important to note that **in the "G7 Bari Declaration on fighting tax crimes and other illicit financial flows" of 13 May 2017, the OECD started**~~was asked to start~~ discussing possible ways to address arrangements designed to circumvent reporting under the CRS or aimed at providing beneficial owners with the shelter of non-transparent structures, considering also model mandatory disclosure rules inspired by the approach taken for avoidance arrangements outlined within the BEPS Action 12 Report.

⁷ Council Directive (EU) 2016/2258 of 6 December 2016 amending Directive 2011/16/EU as regards access to anti-money-laundering information by tax authorities (OJ L 342, 16.12.2016, p. 1).

⁸ Directive (EU) 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing, amending Regulation (EU) No 648/2012 of the European Parliament and of the Council, and repealing Directive 2005/60/EC of the European Parliament and of the Council and Commission Directive 2006/70/EC (OJ L 141, 5.6.2015, p. 73).

- (5) It is necessary to recall how certain financial intermediaries and other providers of tax advice seem to have actively assisted their clients to conceal money offshore. Furthermore, although the CRS introduced by Council Directive (EU) 2014/107⁹ is a significant step forward in establishing a tax transparent framework within the Union, at least in terms of financial account information, it can still be improved.
- (6) The disclosure of potentially aggressive tax planning arrangements of a cross-border dimension can contribute effectively to the efforts for creating an environment of fair taxation in the internal market. In this light, an obligation on intermediaries to inform tax authorities on certain cross-border arrangements that could potentially be used for aggressive tax planning would constitute a step in the right direction. In order to develop a more comprehensive policy, it would also be significant that as a second step, following disclosure, the tax authorities share information with their peers in other Member States. Such arrangements should also enhance the effectiveness of the CRS. In addition, it would be crucial to grant the Commission access to a sufficient amount of information so that it can monitor the proper functioning of this Directive. Such access to information by the Commission does not discharge a Member State from its obligations to notify any state aid to the Commission.
- (7) It is acknowledged that the disclosure of potentially aggressive cross-border tax planning arrangements would stand a better chance of achieving its envisaged deterrent effect where the relevant information reached the tax authorities at an early stage, in other words before the disclosed arrangements are actually implemented. ~~Where the disclosure obligation is shifted to taxpayers, it would be practical to place the obligation to disclose those potentially aggressive cross-border tax planning arrangements at a slightly later stage, as taxpayers may not be aware of the nature of the arrangements at the time of the inception.~~ To facilitate Member States' administrations, the subsequent automatic exchange of information on these arrangements could take place every quarter.
- (8) To ensure the proper functioning of the internal market and to prevent loopholes in the proposed framework of rules, the obligation for disclosure should be placed upon all actors that are usually involved in designing, marketing, organising or managing the implementation of a reportable cross-border transaction or a series thereof as well as those who provide assistance or advice. It should not be ignored either that in certain cases, the obligation to disclose would not be enforceable upon an intermediary due to a legal professional privilege or where there is no intermediary because, for instance, the taxpayer designs and implements a scheme in-house. It would thus be crucial that, in such circumstances, tax authorities do not lose the opportunity to receive information about tax-related arrangements that are potentially linked to aggressive tax planning. It would therefore be necessary to shift the disclosure obligation to the taxpayer who benefits from the arrangement in these cases.

⁹ Council Directive (EU) 2014/107 of 9 December 2014 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (OJ L 359, 16.2.2014, p. 1).

- (9) Aggressive tax planning arrangements have evolved over the years to become increasingly more complex and are always subject to constant modifications and adjustments as a reaction to defensive counter-measures by the tax authorities. Taking this into consideration, it would be more effective to endeavour to capture potentially aggressive tax arrangements through the compiling of a list of the features and elements of transactions that present a strong indication of tax avoidance or abuse rather than to define the concept of aggressive tax planning. These indications are referred to as 'hallmarks'.
- (10) Given that the primary objective of such legislation should focus on ensuring the proper functioning of the internal market, it would be critical not to regulate at the level of the Union beyond what is necessary to achieve the envisaged aims. This is why it would be necessary to limit any common rules on disclosure to cross-border situations, namely situations in either more than one Member State or a Member State and a third country. In such circumstances, due to the potential impact on the functioning of the internal market, one can justify the need for enacting a common set of rules, rather than leaving the matter to be dealt with at the national level. A Member State **could** ~~may~~ take further national reporting measures of a similar nature, but any information collected in addition to what is reportable in accordance with the Directive should not be communicated automatically to the competent authorities of the other Member States. ~~without their explicit consent~~ **That information could be exchanged on request or spontaneously according to applicable rules.**
- (11) Considering that the disclosed arrangements should have a cross-border dimension, it would be important to share the relevant information with the tax authorities in other Member States in order to ensure the maximum effectiveness of this Directive in deterring aggressive tax planning practices. The mechanism for the exchange of information in the context of advance cross-border rulings and advance pricing arrangements should also be used to accommodate the mandatory and automatic exchange of disclosed information on potentially aggressive cross-border tax planning arrangements amongst tax authorities in the Union.

- (12) In order to facilitate the automatic exchange of information and enhance the efficient use of resources, exchanges should be carried out through the common communication network (CCN) developed by the Union. In this context, information would be recorded on a secure central directory on administrative cooperation in the field of taxation. Member States should have to implement a series of practical arrangements, including measures to standardise the communication of all requisite information through creating a standard form. This should also involve specifying the linguistic requirements for the envisaged exchange of information and accordingly upgrading the CCN.
- (13) In order to minimise costs and administrative burdens both for tax administrations and intermediaries and ensure the effectiveness of this Directive in deterring aggressive tax planning practices, the scope of automatic exchange of information in relation to reportable cross-border arrangements within the Union should be consistent with international developments. **A specific hallmark should be introduced to address arrangements designed to circumvent reporting obligations involving automatic exchanges of information. For the purposes of this hallmark, agreements on the automatic exchange of financial account information under the Common Reporting Standard (CRS) of the OECD should be treated as equivalent to the reporting obligations laid down in Article 8(3a) and Annex I of Council Directive (EU) 2014/107. In implementing the parts of this Directive addressing CRS avoidance arrangements and arrangements involving legal persons or legal arrangements or any other similar structures, Member States should take into account use the work of the OECD, and more specifically its Model Mandatory Disclosure Rules for Addressing CRS Avoidance Arrangements and Opaque Offshore Structures and its Commentary,** as a source of illustration or interpretation.
- (13a) To ensure an adequate level playing field with regard to the effective exchange of information and full transparency regarding circumvention schemes of CRS legislation, the European Union expresses its firm political support to an action at the international level for a general implementation of the Mandatory Disclosure Rules for Addressing CRS Avoidance Arrangements and Opaque Structures.**
- (14) In order to improve the prospects for effectiveness of this Directive, Member States should lay down penalties against the violation of national rules that implement this Directive and ensure that these penalties actually apply in practice, that they are proportionate and have a dissuasive effect.

- (15) In order to ensure uniform conditions for the implementation of this Directive and in particular for the automatic exchange of information between tax authorities, implementing powers should be conferred on the Commission to adopt a standard form with a limited number of components, including the linguistic arrangements. For the same reason, implementing powers should also be conferred on the Commission to adopt the necessary practical arrangements for upgrading the central directory on administrative cooperation in the field of taxation. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council¹⁰.
- (16) The European Data Protection Supervisor was consulted in accordance with Article 28(2) of Regulation (EC) No 45/2001 of the European Parliament and of the Council¹¹. Any processing of personal data carried out within the framework of this Directive must comply with Directive 95/46/EC of the European Parliament and of the Council¹² and Regulation (EC) No 45/2001.
- (17) This Directive respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union.
- (18) Since the objective of this Directive, namely to improve the functioning of the internal market through discouraging the use of cross-border aggressive tax planning arrangements, cannot sufficiently be achieved by the Member States acting individually in an uncoordinated fashion but can rather be better achieved at Union level by reason of the fact that it targets schemes which are developed to potentially take advantage of market inefficiencies that originate in the interaction amongst disparate national tax rules, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on the European Union. In accordance with the principle of proportionality, as set out in that Article, this Directive does not go beyond what is necessary in order to achieve that objective, especially considering that it is limited to arrangements of a cross-border dimension of either more than one Member State or a Member State and a third country.
- (19) Directive 2011/16/EU should therefore be amended accordingly,

HAS ADOPTED THIS DIRECTIVE:

¹⁰ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

¹² Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data (OJ L 281, 23.11.1995, p. 31).

Notwithstanding the first subparagraph, intermediaries referred to in the second subparagraph of Article 3(21) shall be required to file information within thirty days beginning on the day after they provided, directly or by means of other persons, aid, assistance or advice.

- 1a. In the case of marketable arrangements, Member States shall take the necessary measures to require that a periodic report is made by the intermediary every 3 months providing an update which contains new reportable information as referred to in ~~Article 8aaa(6)~~paragraph 6, points (a), (d), (g) and (h) that has become available since the last report was filed.
- 1b. Where the intermediary is liable to file information on reportable cross-border arrangements with the competent ~~tax~~ authorities of more than one Member State, such information shall be filed only in the Member State that features first in the list below:

2. Each Member State may take the necessary measures to give intermediaries the right to a waiver from filing information on a reportable cross-border arrangement where the reporting obligation would breach the legal professional privilege under the national law of that Member State. In such circumstances, each Member State shall take the necessary measures to require intermediaries to notify **any other intermediary or, if there is no such intermediary,** the relevant taxpayer ~~or another intermediary~~ of their disclosure obligations under Article 8aaa, paragraph 2a.

4. Each Member State shall take the necessary measures to require intermediaries and relevant taxpayers to file information on reportable cross-border arrangements the first step of which was implemented ~~after~~ **between the** date of entry into force **and the date of application** of this Directive ~~pursuant to Article 3].~~ Intermediaries and relevant taxpayers, as appropriate, shall file information on those reportable cross-border arrangements by ~~31 March~~ **30 June 2020**.

5. The competent authority of a Member State where the information was filed pursuant to paragraphs 1, ~~2~~ **and to** 4 of this Article shall, by means of an automatic exchange, communicate the information specified in paragraph 6 of this Article to the competent authorities of all other Member States, in accordance with the practical arrangements adopted pursuant to Article 21 .

 - (c) a summary of the content of the reportable cross-border arrangement, including a reference to the name by which they are commonly known, if any, and a description in abstract terms of the relevant business activities or arrangements, without leading to the disclosure of a commercial, industrial or professional secret or of a commercial process, or of information whose disclosure would be contrary to public policy;
 - (d) the date on which the first step in implementing the reportable cross-border arrangement has been made or will be made;
 - (e) details of the national provisions that form the basis of the reportable cross-border arrangement;
 - (f) the value of the reportable cross-border arrangement, ~~where applicable~~;
 - (g) the identification of the Member State of the relevant taxpayer(s) and any other Member States which are likely to be concerned by the reportable cross-border arrangement;
 - (h) the identification of any other person in Member State, if any, likely to be affected by the reportable cross-border arrangement indicating to which Member States such person is linked.
- 6a. Absence of reaction by a tax administration to a reportable cross-border arrangement shall not imply any acceptance of the validity or tax treatment of this arrangement.**
7. To facilitate the exchange of information referred to in paragraph 5 of this Article, the Commission shall adopt the practical arrangements necessary for the implementation of this Article, including measures to standardise the communication of the information set out in paragraph 6 of this Article, as part of the procedure for establishing the standard form provided for in Article 20(5).
8. The Commission shall not have access to information referred to in points (a), (c) and (h) of paragraph 6.
9. The automatic exchange of information shall take place within one month from the end of the quarter in which the information was filed. The first information shall be communicated by ~~30 April~~ **[31 July 2020]**."

(3) in Article 20, paragraph 5 is replaced by the following:

"5. The Commission shall adopt standard forms, including the linguistic arrangements, in accordance with the procedure referred to in Article 26(2), in the following cases:

- (a) for the automatic exchange of information on advance cross-border rulings and advance pricing arrangements pursuant to Article 8a before 1 January 2017;
- (b) for the automatic exchange of information on reportable cross-border arrangements pursuant to Article 8aaa before {30 June 2019}.

Those standard forms shall not exceed the components for the exchange of information listed in Articles 8a(6) and 8aaa(6), and such other related fields which are linked to these components which are necessary to achieve the objectives of Articles 8a and 8aaa respectively.

The linguistic arrangements referred to in the first subparagraph shall not preclude Member States from communicating the information referred to in Articles 8a and 8aaa in any of the official languages of the Union. However, those linguistic arrangements may provide that the key elements of such information shall also be sent in another official language of the Union."

(4) in Article 21, paragraph 5 is replaced by the following:

"5. The Commission shall by 31 December 2017 develop and provide with technical and logistical support a secure Member State central directory on administrative cooperation in the field of taxation where information to be communicated in the framework of paragraphs 1 and 2 of Article 8a shall be recorded in order to satisfy the automatic exchange provided for in those paragraphs.

The Commission shall by 31 December { 2019} develop and provide with technical and logistical support a secure Member State central directory on administrative cooperation in the field of taxation where information to be communicated in the framework of paragraphs 5, 6 and 7 of Article 8aaa shall be recorded in order to satisfy the automatic exchange provided for in those paragraphs.

The competent authorities of all Member States shall have access to the information recorded in that directory. The Commission shall also have access to the information recorded in that directory, however within the limitations set out in Articles 8a(8) and 8aaa(8). The necessary practical arrangements shall be adopted by the Commission in accordance with the procedure referred to in Article 26(2).

Until that secure central directory is operational, the automatic exchange provided for in paragraphs 1 and 2 of Article 8a and paragraphs 5, 6 and 7 of Article 8aaa shall be carried out in accordance with paragraph 1 of this Article and the applicable practical arrangements."

(5) in Article 23, paragraph 3 is replaced by the following:

"3. "ANNEX IV
HALLMARKS

Generic hallmarks under category A and specific hallmarks under category B [and paragraph 1 of category C] may only be taken into account where they fulfil the "main benefit test".

Main benefit test

The test will be satisfied if it can be established that the main benefit or one of the main benefits which, having regard to all relevant facts and circumstances, a person may reasonably expect to derive from an arrangement is the obtaining of a tax advantage.

A. Generic hallmarks linked to the main benefit test

1. An arrangement where the relevant taxpayer or a participant in the arrangement undertakes to comply with a condition of confidentiality which may require them not to disclose how the arrangement could secure a tax advantage vis-à-vis other intermediaries or the tax authorities.
2. An arrangement where the intermediary is entitled to receive a fee (or interest, remuneration for finance costs and other charges) for the arrangement and this fee is fixed by reference to:
 - (a) the amount of the tax advantage derived from the arrangement; or
 - (b) whether or not a tax advantage is actually derived from the arrangement. This would include an obligation on the intermediary to partially or fully refund the fees where the intended tax advantage derived from the arrangement was not partially or fully achieved.
3. An arrangement that has substantially standardised documentation and/or structure and is available to more than one relevant taxpayer without a need to be substantially customised for implementation.

B. Specific hallmarks linked to the main benefit test

1. An arrangement whereby a participant in the arrangement takes contrived steps which consist in acquiring a loss-making company, discontinuing the main activity of such company and using its losses in order to reduce its tax liability, including through a transfer of those losses to another jurisdiction or by the acceleration of the use of those losses.
2. An arrangement that has the effect of converting income into capital, gifts or other categories of revenue which are taxed at a lower level or exempt from tax.
3. An arrangement which includes circular transactions resulting in the round-tripping of funds, namely through involving interposed entities without other primary commercial function or transactions that offset or cancel each other or that have other similar features.

C. Specific hallmarks related to cross-border transactions

1. An arrangement that involves deductible cross-border payments made between two or more associated enterprises where at least one of the following conditions occurs:
 - (a) the recipient is not resident for tax purposes in any tax jurisdiction;
 - (b) although the recipient is resident for tax purposes in a jurisdiction, that jurisdiction either:
 - i. does not impose any corporate tax or imposes corporate tax at zero rate; or
 - ii. imposes corporate tax at a statutory corporate tax rate lower than ~~40~~³⁵% of the average statutory corporate tax rate in the Union, as it stands at the end of the previous calendar year; or
 - iii. is included in a list of third-country jurisdictions which have been assessed by Member States collectively or within the framework of the Organisation for Economic Co-operation and Development as non-cooperative ;
 - (c) the payment benefits from a partial or full exemption from tax in the jurisdiction where the recipient is resident for tax purposes;**
 - (d) the payment benefits from a preferential tax regime in the jurisdiction where the recipient is resident for tax purposes ;
2. Deductions for the same depreciation on the asset are claimed in more than one jurisdiction.
3. Relief from double taxation in respect of the same item of income or capital is claimed in more than one jurisdiction.
4. There is an arrangement that includes transfers of assets and where there is a material difference in the amount being treated as payable in consideration for the assets in those jurisdictions involved.

- D. Specific hallmarks concerning automatic exchange of information and beneficial ownership
1. An arrangement which may have the effect of [~~avoiding~~**undermining**] the reporting obligation under the laws implementing Union legislation or any equivalent agreements on the automatic exchange of **financial account** information, including agreements with third countries, or which takes advantage of the absence of such legislation or agreements. These arrangements include:
 - (a) the use of an account, product or investment that is not, or purports not to be, a financial account, but has features that are substantially similar to those of a financial account;
 - (aa) the transfer of financial accounts or assets to, or the use of jurisdictions that are not bound by the automatic exchange of financial account information with the State of residence of the relevant taxpayer;
 - (b) the re-classification of income and capital into products or payments that are not subject to the automatic exchange of financial account information;
 - (c) the transfer or conversion of a financial institution or a financial account or the assets therein into a financial institution or a financial account or assets not subject to reporting under the automatic exchange of financial account information;
 - (d) the use of legal entities, arrangements or structures that eliminate or purport to eliminate reporting of one or more Account Holders or Controlling Persons under the automatic exchange of financial account information;
 - (e) arrangements that undermine or exploit weaknesses in the due diligence procedures used by financial institutions to comply with their obligations to report financial account information, including the use of jurisdictions with inadequate or weak regimes of enforcement of anti-money laundering legislation or with weak transparency requirements for legal persons or legal arrangements.
 2. An arrangement involving a non-transparent legal or beneficial ownership chain , which includes the use of persons, legal arrangements or structures:
 - a) that do not carry on a substantive economic activity supported by **adequate** staff, equipment, assets and premises; and
 - b) that are incorporated, managed, resident, controlled or established in any jurisdiction other than the jurisdiction of residence of one or more of the beneficial owners of the assets held by such persons, legal arrangements or structures; and
 - c) where the ~~Controlling Persons~~**Beneficial Owners** of such persons, legal arrangements or structures, **as defined in Directive 2015/849 of the European Parliament and of the Council of 20 May 2015 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing,** are unidentifiable.

E. Specific hallmarks concerning transfer pricing

1. An arrangement which involves the use of unilateral safe harbour rules.
 2. An arrangement involving the transfer of hard-to value intangibles. The term hard-to-value intangibles (HTVI) covers intangibles or rights in intangibles for which, at the time of their transfer between associated enterprises:
 - (i) no reliable comparables exist, and
 - (ii) at the time the transactions was entered into, the projections of future cash flows or income expected to be derived from the transferred intangible, or the assumptions used in valuing the intangible are highly uncertain, making it difficult to predict the level of ultimate success of the intangible at the time of the transfer.
 3. An arrangement involving **one or more** ~~an~~ intra-group cross-border transfer of functions and/or risks and/or assets, ~~in particular, intangible assets~~, if such transfer results in decline of 50 % or more of the earnings before interests and taxes **(EBIT) of the jurisdiction where the functions, risks and/or assets are transferred out of within a period of three tax years.**
