**Betreff:** Follow up to today's ETC ULS conference call on soil

Dear colleagues,

Thanks again for joining the conference call this afternoon!!

I appreciate that most of you can join the 16<sup>th</sup> Jan. in Wageningen!

Regarding the NRC Soil meeting 23/24 Jan, I attach the draft agenda FYI. We discussed that [REDACTED] and I would follow up on the resp. agenda item regarding the LRE report. If none of you can be present in person during the meeting, we could prepare some slides together based on the report, and I would present (I'd prefer diversity...).

Regarding soil biodiversity, I attach FYI the ITPS report on the effects plant protection products on soil ecosystem services. The report is not public yet - though printed. For [REDACTED]: I announced that I would add you to the loop of discussion related to the MAES soil pilot ([REDACTED] and [REDACTED] are also involved). That would be roughly in the second week of January.

Some more info:

- Draft UN Resolution on soil pollution (attached)
- 2-4 May 2018 is the Global Symposium on Soil Pollution, in Rome, FAO

I wish you all a very festive season and happy days with your families.

Greetings,

Kongens Nytorv 6

1050 Copenhagen K, Denmark
