I hope you find today's meeting interesting and useful. If you are in Brussels till tomorrow, perhaps we can arrange a short meeting to discuss the progress of 6.6 action.

If not, may I ask you to update the attached progress report table by Monday if possible.

Thank you in advance.

Kind regards,

As we do not know the exact date of the NRA approval regarding the new National TYNDP, we will send you our best assumption for the beginning Milestones 4 and 5 that would be on 9 January

Dear [REDACTED]

I am sorry for my late reply. I am out of office until next Monday (19 September). For the Milestones 4 and 5, would it be too late to get back to you when am at the office and see the availability of launching the tenders. Concerning the Milestone 1, the tender is not needed. It is establishing the working group/team within the company. Milestone 2 and 3 is depending on LNG or better say the Binding phase of the Open Season for the LNG and LNG Evacuation Pipeline

Kind regards,

Hi,

Please be advised that pursuant to the Grant Agreement under the Connecting Europe Facility (CEF) No INEA/CEF/ENER/M2015/1118994 for the action entitled "Interconnection Croatia – Slovenia (Bosiljevo – Karlovac – Lučko – Zabok – Rogatec (SI)) – Studies for Phase I", action No 6.6-0046-HR-S-M-15, the activities 2 and 3 have been delayed.

I would like to point out that delay will be short, and we are waiting for the confirmation by the NRA regarding the new National TYNDP. As soon as we receive the confirmation, we will continue with the Activities 2 and 3. (ovdje ti je pisalo # ? ne znam zašto)

Subject: Action 6.6-0046-HR-S-M-15_Agreement FINAL 13.4.2016

[REDACTED],

Hereby I would like to advise you about a delay in the activities under the Grant Agreement under the Connecting Europe Facility (CEF) No INEA/CEF/ENER/M2015/1118994 for the action entitled "Interconnection Croatia – Slovenia (Bosiljevo – Karlovac – Lučko –

Zabok – Rogatec (SI)) – Studies for Phase I", action No 6.6-0046-HR-S-M-15.

The delay is referring to the Activities Number 1, 4 and 6 -Project Management, Preparation of the feasibility study and functional specification for the compressor station CS-2 and CS-3.

There are some changes in the LNG concept, and Plinacro needs to harmonize its technicalities with the LNG project including CS2 and CS3, so the projects of CS2 and CS3 are in delay.

The activities are put on standby exclusively to avoid unnecessary piling of costs should the final solution of the evacuation gas pipeline be different to some extent.

I would like to point out that these changes and delay will neither influence the Action End Date, nor the amount of the Agreement.
