Subject: RE: additional data

Dear [REDACTED],

Please find in the attachment updated information on the questions from STECF with regard to the joint recommendation.

With regard to your specific question about the UK data, the UK has already answered that the UK figures include vessels using pots to target lobsters, crabs and nephrops.

The data provided by the UK on exemption 5.1.3. (nephrops outside Farne Deeps) has not changed. It is included again for your convenience.

Kind regards,

[REDACTED]
Ministry of Economic Affairs
