Dr. ir. [REDACTED]  
BP Europa SE - BP Belgium  
Rond Point Schuman 11  
1040 Brussels

By e-mail: [REDACTED]

Dear Mr [REDACTED],

Thank you for your letter of 23 February 2018, presenting the position of BP on the treatment of renewable hydrogen used in refineries.

I have read your letter with interest and I welcome the commitment of BP to contribute towards the discussion on the future renewable energy policy in the transport sector. As you know, the proposals of the Clean Energy for All Europeans package are now subject to the co-decision process between the European Parliament and the Council. Both the European Parliament and the Council have adopted their initial positions on the proposal for the recast of the Renewable Energy Directive. The Commission is fully committed to provide the necessary assistance so that the Renewable Energy Directive and the whole Clean Energy Package underpin the ambition and the leadership of the European Union in the entire renewables sector.

I would suggest organising a meeting with the team of Mrs [REDACTED] the Director for Renewables, Research and Innovation, Energy Efficiency for more in-depth discussion on these issues you have raised.

Yours sincerely,

Dominique Ristori
