Reference is made to your email of 8 August 2018 to the Permanent Representation of Denmark to the European Union requesting access to:

“[...] documents which contain the following information: All correspondence (letters, emails, etc) and minutes of meetings (or any other reports of such meetings) where the EU criteria for the identification of endocrine disrupting chemicals [...] were discussed between officials of the Permanent Representation of Denmark to the EU and representatives of (one or more of) the following companies/organizations: Bayer –BASF, Dow Chemical, DuPont, DowDuPont (after merger), Syngenta, Monsanto, European Crop Protection Association (ECPA), European Chemical Industry Council (Cefic) between June 1st 2016 and August 1st 2018.”

The Ministry have conducted a search in relevant systems etc. for documents of the above-mentioned kind. It has not been possible to identify any such documents.

This decision cannot be appealed to any other administrative authority.
