European **Political**
Strategy Centre

Dear Colleague,

On behalf of the European Political Strategy Centre (EPSC), I have the great pleasure to invite you to a **Policy Briefing:**

Artificial Intelligence: Anticipating the Challenges

We are delighted to host [Risto Siilasmaa](#), **Chair of the Board of Directors of Nokia Corporation**, who will share his views on how Artificial Intelligence is set to reshape society.

Robots are not only increasingly present in industrial applications; they are being used to drive cars, to help children learn, to diagnose illnesses, or to provide home assistance. Many can successfully perform intellectual tasks in domains previously only open to humans. While the opportunities are unprecedented, so are the risks, challenges and ethical dilemmas that will emerge and that must be addressed by public authorities and other stakeholders.

The event will take place on **Friday, 27 October 2017**, from **13h00 to 14h00** in the **Berlaymont building (room 12/040)**, and will be held under Chatham House rules to facilitate an open and interactive discussion.

Please confirm your participation by accepting this invitation* and note that seats will be distributed on a first-come, first-served basis. A sandwich lunch and refreshments will be provided.

Should you need further information please do not hesitate to get in touch with [REDACTED] [@ec.europa.eu](mailto:[REDACTED]@ec.europa.eu) or [REDACTED] ([REDACTED] [@ec.europa.eu](mailto:[REDACTED]@ec.europa.eu)) from the EPSC's digital team.

I very much hope to have the pleasure of welcoming you to this timely exchange.

Best wishes,

Ann Mettler
