Dear Maja  
hope my mail finds you well  
I come back to you following our discussion in Ljubljana about the idea to set up a new "platform"  
devoted to the EU funded projects dealing with CNG/LNG as transport fuel.

I enclose a first draft about the concept, just to translate a first internal brainstorming.  
The next couple of weeks I will be here in Brussels, so I will be very glad if we could meet at your  
convenience to directly discuss about this idea.

Thank you very much and wish you a good restart of the week!

With kind regards  
[REDACTED]
