Betreff: Meeting request on EU HTA cooperation with the medical technology industry

Dear Ms Drzewoska, Dear Mr Bermig,

I am writing to you to request a meeting regarding Health Technology Assessment (HTA) at EU level. with specific focus on transformative technologies and innovative procurement.

As the European Commission is conducting an impact assessment on potential approaches for strengthening the use of and cooperation on HTA at European level, we would like to have a discussion with you on the potential implication on the medtech industry.

As the trade association representing the medical devices and in vitro diagnostics (IVD) manufacturers in Europe, we are a key stakeholder in this debate. We would therefore like to propose a meeting to hear your view and to have the opportunity to present to you our concerns and ideas.

Please let me know if you would be available for a meeting at your earliest convenience.

Best regards
