⁴Please note that “assets/liabilities” refer to BGK’s overall assets and liabilities. Export support is one of the tasks carried out by BGK.

b) Number/exposure of transactions Category B	1
How are environmental risks, which can carry other relevant risks, taken into account in the officially supported export credit activities?	KUKE follows internal procedures compliant with the Common Approaches, including screening of all relevant projects for potential environmental impact and benchmarking the project against international standards. The consideration of a project's environmental impact is a component of risk assessment. Imposing additional conditions of cover to the applicant before issuing insurance agreement is often a result.
