Subject: Following our meeting this week

Dear Commissioner Moedas,

It was great to meet you and thanks so much for your time. [REDACTED] is following up on the issues that we discussed, all of which we think are important:

- How to give visibility to the EU Commission initiatives in founding open innovation.
- Support the dialogue between DG Research and Google on possible joint research projects.

We look forward to working with you and your team. As I said, we get that Google needs to do more and listen better in Europe. We are eager to do better and welcome your feedback.

Thank you.
