Attachments: GD4S attendance.xlsx

Dear [REDACTED]
 I have the pleasure to share with you the ID information of people who will compose the GD4S' delegation for the meeting scheduled on January 29th at 15:00.
 Please, let me know if you need additional information.
 Best regards,

[REDACTED]
 We would like to thank you for your quickly answer.
 Our representatives present in Brussels on January 29th would be delighted to meet you, in your office, from 15:00 to 15:45.
 We will send you, as soon as possible, ID information of people composing the GD4S delegation for this meeting in order to let you create their e-pass.

We look forward to meeting you.
 Best regards,

Objet : FW: Gas distribution for sustainability - Sollicitation for a meeting on January 29th regarding the European Green Deal

Dear GD4S,

On behalf of Mr Runge-Metzger I would like to thank you for your e-mail. Unfortunately, on 29 January he will not be available to meet you. However, he would be very interested to hear your views on the Green Deal, thus he has asked me to replace him, as I am working both on the Green Deal and I am following energy related issues for DG CLIMA.

If this replacement is fine for you we could schedule a meeting in the afternoon of 29 January, in our office in Avenue de Beaulieu 24, 1160 Brussels. For example we could meet between 15:00 – 15:45, if this slot is convenient for you.

I look forward hearing from you.

Kind regards,

European Commission

Directorate-General for Climate Action (DG CLIMA)

Unit C.1: Strategy and Economic Assessment

Subject: Gas distribution for sustainability - Sollicitation for a meeting on January 29th regarding the European Green Deal

Dear Mr Runge-Metzger,

First of all, we would like to wish you a happy new year.

Following our first mail sent in December 2019, we would like to recall our request for a meeting on **January 29th**, at your best convenience, regarding the Green Deal strategy developed by your services.

GD4S brings together six of the largest gas distribution system operators from 6 different Member States (Romania, France, Italy, Spain, Portugal, Ireland), serving 26 million customers in Europe and representing 86% of all gas vehicles registered in the EU. Our associated companies are strongly committed to contributing to the decarbonisation of the economy and aim at raising awareness of the potential of renewable gas.

In the context of the European Green Deal, GD4S believes in the potential of renewable gas as a credible and affordable solution to help reaching the EU's climate goals and we are fully convinced that gas grids offer an efficient, affordable and readily available solution as part of the energy transition and decarbonisation of the economy.

Since its creation in 2016, GD4S has been active towards EU institutions in promoting the grids as enabler of the energy transition. We would be delighted to continue this cooperation in the context of the European Green Deal. In addition to exchange about main interesting points included into the Communication released in December, we would be pleased to present some success story regarding renewable gases from our 6 countries.

GD4S representatives would be pleased to meet you on **January 29th**, at your best convenience.

I will contact your services, by the end of the week, to assess your availability for such a meeting.

Respectfully,
