Key messages

- [REDACTED]
- **Nuclear safety** remains a key priority for the EU and its MS. EU welcomes that the **National Action Plan** for implementation of the stress test peer review recommendations has been submitted to the Government and encourages **its swift submission to ENSREG for review**.
 - Highlight the importance of **continued transparent cooperation** and understanding in the final steps of the negotiations.
- [REDACTED]
- [REDACTED]

Defensives**On Espoo decision ([REDACTED])**

The EU position is that the findings of the Implementation Committee were well grounded and that the decision was procedurally valid. Regret that no consensus was found with Belarus on this decision. Call on Belarus to respect the decision and follow up its findings, in particular the post project cooperation with Lithuania.
