11. On 8-10 March a joint mission by DG ENER and ENSREG visited BY to review the implementation of the BY action plan in adopting the stress test recommendations for the Ostravets NPP. The mission met with BY nuclear regulator GAN, and had a meeting with DFM Kravchenko, accompanied by the deputy ministers of Energy and Emergency Planning. The mission also gave a read out of both meetings to EU HoMs. The overall assessment of the meetings was rather positive, however practical steps to follow-up on further actions will determine the future dynamics of cooperation.
