Dear Commissioner,

I understand that you may attend the 2018 Annual Meeting of the World Economic Forum in Davos, taking place from January 23-26. In this context I wanted to inquire whether you would be available to meet with [REDACTED], currently Novartis Global [REDACTED], who will succeed [REDACTED] as Novartis CEO in February 2018.

[REDACTED] would like to discuss with you how the industry can help fight Antimicrobial Resistance (AMR). In addition, he would also be interested to exchange views on how to further improve patient outcomes in the field of rare diseases, for example via the European Reference Networks for Rare Diseases (ERNs).

Novartis provides innovative healthcare solutions that address the evolving needs of patients and societies. We offer a diversified portfolio to best meet these needs: innovative medicines, cost-saving generic and biosimilar pharmaceuticals and eye care. Novartis has leading positions globally in each of these areas. In Europe, Novartis has 89 sites and close to 36'000 associates, leading to a total of around 168'000 jobs, including in related businesses.

I look forward to hearing from you soon. In the meantime, please do not hesitate to contact me via email at [REDACTED]@novartis.com or via telephone at +32 2 246 [REDACTED]

Yours sincerely,

[REDACTED]
