Subject: RE: Letter to President Sassoli from Google CEO Sundar Pichai A(2684)

Dear Ms [REDACTED]

On behalf of President Sassoli, we would like to thank CEO Sundar Pichai for his letter outlining the work Google is doing to support European citizens and businesses at this difficult time.

The situation linked to the pandemic has greatly impacted our ways of working and has been trying to say the least. During these uncertain times, the President is currently extremely busy with his commitments which have had to be substantially adapted as well as dealing with the responses to give during and following the pandemic.

This is why we have made the decision not to add to his agenda for the moment.

Let us be in touch further on in the year when hopefully things normalise.

Best regards,

[REDACTED]

Subject: Letter to President Sassoli from Google CEO Sundar Pichai

Dear [REDACTED],

I hope this mail finds you safe, sane and at home during this difficult time.

I would be grateful if you could bring the attached letter from Google CEO, Sundar Pichai, to the attention of President Sassoli.

Supporting Governments and Institutions in the fight against COVID-19 is a priority for Sundar. We are already working with the EU Parliament, e.g. providing support to spread critical COVID-19 related information to European citizens and discussing how contact tracing systems can be as effective and privacy compliant as possible.

Allow me to reiterate the availability of Sundar to discuss with President Sassoli about the measures already in place and how Google could further support Europe in this delicate phase.

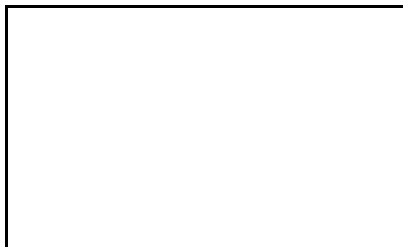

Thank you very much for your availability.
We remain at your disposal for any further information or initiative.

Best regards,
