Subject: RE: URGENT - for your possible comments, please - by 14:00 hrs today 2 Dec 2020

Dear HSC Secretariat,

Just a couple of comments to the draft document:

- In the last paragraph on page 2 it is stated : "... the European Medicines Agency's (EMA) Committee for Medicinal Products for Human Use is evaluating preliminary data on **two** COVID-19 vaccines using a rolling review procedure... ". At today's date there are four (and not two) vaccines being evaluated according to the rolling review process.
- In the last bullet point in page 1 I would propose this alternative text: "• Modelling different options for vaccine efficacy **for different outcomes (including severe disease, mild disease, infection and infectivity, death)** and vaccine uptake in EU populations as well as different scenarios for prioritization is an important step that will inform decisions on vaccination strategies and estimate their possible impact."

Best regards

Asunto: URGENT - for your possible comments, please - by 14:00 hrs today 2 Dec 2020

Importancia: Alta

Dear HSC members,

Based on the survey among you and a similar survey and discussions with the NITAG-collaboration regarding the preparations of deploying the forthcoming COVID-19 vaccines, ECDC has written the attached document which should be published today.

Could you please inform us by 14:00 hours today (2 Dec 2020), if you would have any comments?

Kind regards,

HSC Secretariat
