Subject: ERT contribution in view of a meeting with Commissioner Breton

Dear Joan,

Thank you for the constructive meeting we had last week.

Please find attached ERT's input regarding Technological Transformation and the Update of the EU Industrial Strategy as a basis for a meeting between Commissioner Breton and a Delegation of ERT Members.

We have presented 5 ecosystems with essential technology enablers and key actions to unlock these as well as Key Performance Indicators (KPIs) to measure progress. This presentation dives deeper into the electronics/manufacturing ecosystem as an example. We have more material regarding the other ecosystems which we'd be happy to elaborate upon depending on your interest.

Would you be willing to suggest a timeslot for a meeting?

Furthermore, we attended the first meeting of the Industrial Forum this morning and it was promising to hear broad support for the ecosystems, benchmarking through KPIs and removing barriers to the Single Market, amongst others!

We look forward to hearing from you and are at your disposal for any questions of course.

Kind regards,
