Subject: advice on who to talk to about proof of COVID vaccination?

Hi [REDACTED] appreciate you have a lot on your plate right now, I'm hoping to connect with the person who might be reviewing the notion of issuing digital proof of COVID-19 vaccinations?

As the Health Secretary, Vaccines Minister and Cabinet Office in the UK consider an international [certificate system](#) - would you know who might be involved in these conversations at European Commission?

For context my team at Accredible works with organisations like UKAS and the Corona Test Centre to automatically issue, track, and verify digital certifications [like these](#), for tests, accreditation purposes and other medical data hosted in a portable [mobile wallet](#).

Look forward to hearing your thoughts,

Accredible
