

Title: Meeting between [REDACTED] and [REDACTED] on COVID-19 tech solutions
Zoom, 19/04/2021

Participants:

- **Commission Participants:** [REDACTED]
- **Third parties' participants:** [REDACTED]

Main topics discussed:

- [REDACTED]
[REDACTED] They seek to support the development of the solution for Croatia and possibly contribute to a demo.
- Participants discussed that public information available on the status of the development of the Digital Green Certificates solution and particularly the technical specifications is currently limited. Participants briefly discussed the perception of users on contact tracing apps.
- CNECT clarified the coordination role of the Commission and that the development of a national solution for Digital Green Certificates is a responsibility of the Member States. Croatian representatives are part of the eHealth Network and are responsible for appointing any additional experts to work on their national solutions. CNECT suggested that stakeholders get in contact the Croatian eHealth Network representatives for further information and direction.

Operational conclusions:

- CNECT shared links to the work of eHealth Network on the SANTE website https://ec.europa.eu/health/ehealth/covid-19_en
- CNECT suggested stakeholders to contact the Croatian Representatives on the eHealth Network (Croatian Ministry of Health) to enquire on how they can best support.
