Subject: SafeWorld™ [REDACTED], the solution for the vaccination pass

Dear Mr. Reynders,

[REDACTED] SafeWorld™ [REDACTED], a Swiss startup that created the first digital vaccination passport available in Switzerland.

Our system is fully compliant with the GDPR, and puts user privacy at the core of our mission. The SafeWorld™ [REDACTED] digital vaccination passport is currently available, and we are ready to implement it on a large scale. On our official website you can find more information about our solution <https://www.safeworld.swiss/>.

In case you need any external help or consultation regarding the creation of a digital vaccination passport for the EU, we are willing to provide our system and our knowledge in order to help in the realisation of this project.

We are convinced that a “European Green Pass” would be of great help in allowing the community to resume social life in complete safety, and it would be an honour for us to help.

If you need any additional information, please feel free to contact me anytime.

Best regards,

SafeWorld™ [REDACTED]
Lugano, Switzerland
