**Subject:** ASSONIME Report: "The institutional set-up for using the Next Generation-EU resources"

Dear Ms Gauer,

I am pleased to send you the [Report](#) (in Italian) and the [executive summary](#) (in English) which contains Assonime's **proposals for effective management of the Recovery Fund** in Italy.

The **Report** - prepared by a group of experts and coordinated by myself - proposes an **institutional architecture** centered on the Prime Minister, assisted by a Minister without portfolio for the Recovery Fund and a **strong technical coordination structure**.

The Report also outlines the **main types of intervention** and incisive rules of **simplification**, particularly urgent to be able to spend the resources made available by Europe.

Best regards
