Dear Commissioner Breton,

On behalf of the Executive Council of the American Chamber of Commerce to the European Union (AmCham EU), I would like to sincerely thank you for e-meeting with us on Tuesday, 28 April 2020. Our members found the discussion extremely interesting and we hope that you benefited from the encounter as well.

The Executive Council members greatly valued your insights on the previous and current challenges of the pandemic and the next steps for economic recovery of the EU. Your overview gave us a comprehensive view on the issues at stake for the EU and the world and the COVID-19's impact on business. We hope the concrete examples our members provided during the meeting, including the effects of the pandemic on our businesses, will help you in your work. As senior business leaders, we would be delighted to continue this conversation virtually and in-person. We will be sure to take you up on your offer, to contact you or your team office immediately, if we have any serious business issues.

We would like to share with you AmCham EU's position paper '[An industrial vision for the EU](#)'. In this paper AmCham EU highlights four key priorities for the future industrial strategy of the EU including Digitising European industry; Fostering investment and innovation in people, technologies and processes; Accelerating the EU circular economy and Creating the right environment for a clean future. These four priority areas are even more crucial now than ever before to achieve a full economic recovery of the EU.

Our members hope to continue this open and direct dialogue with you and your team on the future of the European Union and transatlantic partnership in the face of this crisis. The Executive Council members and the AmCham EU team remain at your disposal should any questions arise.
