

Minutes: Meeting with SAP to discuss SAP Climate21 programme, 11 December 2020

Participants: Antoine Colombani, Stefanie Hiesinger (Cabinet of EVP Timmermans, European Commission) ; [REDACTED] (SAP SE [REDACTED] public policy), [REDACTED] (SAP SE)

SAP participants presented their Climate21 programme to provide new software solutions to allow companies to better understand and optimize the carbon footprint of products and operations, along the entire supply chain. They stressed the importance of EU level standards and eventually globally recognised standards, as well as regulatory consistency.

Commission participants thanked SAP for presenting their project and gave an overview of the state of play the various ongoing Green Deal initiatives relevant to CO2 and environmental footprint.
