CNECT	<input checked="" type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	CNCT made the case that with regard to article 6 of the proposal, the corresponding recital (19), as well as the Explanatory Memorandum (1.2), the same policy objective could be achieved without any explicit derogation from Article 15 of the E-Commerce Directive as currently included in Recital (19). This is also relevant with an eye on smoothening the

								<p>negotiations with co-legislators.</p> <p>In addition to editorial comments, CNCT:</p> <ul style="list-style-type: none">- considered that the more severe penalties for systematic failure in art 18(4) should only cover art 4(2) on non-compliance, and not 4(5) on non-communication. Accepted;- proposed a further specification in art 19 and art 4(4) allowing for legal orders sent by electronic means to be eIDAS compliant to assert the authenticity, integrity and the time stamp of the legal order in a legally binding manner. Compromise wording for art 19 was agreed allowing the option for a delegated act to cover authentication. A footnote would also be added in the template making clear the possibility of electronic authentication.
