As for the public procurement (second and third bullet in INEA's e-mail below), the invoice selected for control (invoice No 2) was issued under the contract for which procurement procedure was conducted by Energinet.   - a) Justification for the increase of the aggregated value of the contract, if such an increase is higher than 50% than original amount;
  - b) Justification for the absence of an EU wide tendering process when the value of the contract is above EU thresholds or for use of negotiated procedures without prior publication;
  - c) Justification for the absence of the reference of publication(s) in the Official Journal (contract award notice);
  - d) Information on any applicable framework contract;
  - e) When below EU thresholds, confirm best value for money.
  - f)
- Selected procurement procedure: Out of the transactions of the sampling, item number 2 and 3 have been selected 5 (in blue) for a more detailed assessment of the procurement procedure applied. In particular, for large contracts concluded by private entities, such documents as requests for offers from contractors, the received offers and their comparison analysis, a signed contract etc. should be submitted.  
If you have already provided relevant information to the agency concerning tendering procedure, please make a reference to this in your reply.
