NOTE

Origine:	Secrétariat général du Conseil
Destinataire:	Comité des représentants permanents
Objet:	Proposition de règlement modifiant le règlement (UE) 2018/1862 sur l'établissement, le fonctionnement et l'utilisation du système d'information Schengen (SIS) dans le domaine de la coopération policière et de la coopération judiciaire en matière pénale en ce qui concerne l'introduction de signalements d'information sur des ressortissants de pays tiers dans l'intérêt de l'Union – Préparation du trilogue

I. Contexte

Les contacts entre colégislateurs concernant les négociations sur la proposition de modification du règlement SIS en objet ont été réactivés après l'accord politique sur la proposition de modification du règlement Europol.

Un certain nombre de réunions tripartites informelles et un trilogue technique ont été organisés afin de finaliser une proposition de texte de compromis. Les délégations ont été tenues informées du déroulement des négociations lors des réunions du groupe de travail sur l'échange d'informations dans le domaine de la JAI (IXIM).

Les négociateurs du Parlement et du Conseil, assistés par les représentants de la Commission, se sont concertés au niveau technique sur une proposition de compromis révisée qui est présentée en annexe sous la forme d'un tableau quatre colonnes. Cette proposition de compromis est en attente de validation au niveau politique.

II. Proposition de compromis

La proposition de compromis sur le texte SIS en annexe intègre tous les éléments clés du mandat de négociation sur la proposition SIS approuvé par le Comité des représentants permanents (Coreper) le 13 octobre 2021¹.

La proposition de compromis inclut notamment la création d'un nouveau type de signalement, le signalement informatif concernant les ressortissants de pays tiers dans l'intérêt de l'Union (ci-après 'signalement informatif'), sans aucun lien avec le territoire des États membres.

Il est proposé qu'Europol joue un rôle clé dans l'analyse et la vérification de toutes les informations fournies par les pays tiers et les organisations internationales avant leur enregistrement dans le SIS. Europol aidera les États membres à traiter les données de pays tiers et fera des propositions sur l'enregistrement éventuel de signalements informatifs. Toutefois, seuls les États membres seront autorisés à introduire des signalements informatifs dans le SIS. Les États membres auront en plus le pouvoir discrétionnaire d'émettre d'autres types de signalements une fois qu'ils auront reçu une proposition d'Europol.

Les concessions et améliorations que comporte le texte de compromis par rapport au mandat du Conseil se trouvent dans les considérants, dans les garanties visant à assurer que les informations sont traitées dans le plein respect des droits de l'homme et qu'elles peuvent être corrigées dans les cas où Europol dispose de nouveaux éléments de preuve, dans les dispositions visant à garantir qu'Europol reçoit systématiquement des informations en cas de réponse positive ('hit'), et dans les dispositions visant les informations à fournir à la Commission pour une évaluation de l'efficacité des signalements informatifs et un rapport en la matière.

¹ 12800/21.

La présidence a pu constater lors de la réunion du groupe de travail IXIM du 25 février dernier que les délégations soutenaient l'approche de la présidence² dans sa globalité, n'ayant exprimé qu'un nombre limité d'observations techniques ou de réserves d'examen qui n'ont pas été jugées de nature à bloquer les travaux.

III. Préparation du trilogue

À la lumière de ce qui précède, le Comité des représentants permanents est invité à valider les compromis proposés par la présidence et repris dans le tableau figurant à l'annexe de la présente note afin de conclure les négociations sur le dossier législatif lors du prochain trilogue politique.
