## NOTICE

(13/2023)

**Subject: Rehabilitation works on the Europe Bridge between Strasbourg and Kehl between May and September 2023**

The Eurométropole de Strasbourg and the Regierungspräsidium Freiburg (RPF) have informed Parliament that the [rehabilitation works](#) on the Europe Bridge (E 52/B 28) between Strasbourg and Kehl will start in May and end in September 2023.

During this period, only one lane per direction of traffic will be maintained for vehicles weighing less than 3.5 tonnes and less than 2.20 metres wide. The bridge will thus be closed to heavy goods vehicles.

Pedestrians and cyclists will be diverted to the nearby Beatus-Rhenanus bridge.

In light of the above, travel times by car between the European Parliament and Germany (Offenburg train station, hotels or restaurants) are likely to increase. Members are kindly requested to consider this when making reservations for an official car with a view to plan sufficient time for the transport.

The Car Reservation Centre remains available for any additional information.
