Subject: Thank you and looking forward to staying in touch

It was a pleasure to meet you all (virtually) on Monday. We appreciated the constructive discussion on exposure notification, the AI whitepaper, and the Digital Services Act, and hope you found it useful.

As we touched on some of our work on these topics, we thought that you might find the following materials helpful (and perhaps even interesting!).

- [New information](#) we published on May 4th about our exposure notification project with Apple, including [terms and conditions](#) governing the APIs we are building.
- [FAQ on Google-Apple exposure notification](#)
- [Our approach to responsible AI](#)
- [Our recent announcement on verifying advertiser identity](#) (which may be relevant to the DSA discussions)

I look forward to keeping in touch on these issues. Please don't hesitate to reach out to any of us if you ever have the need.

Kind regards,

[REDACTED]
