Subject: Visit to Brussels

Dear Elina,

I may come back to our conversation a few weeks back in Brussels.
We will be visiting on June 5 and 6, 2023.

The purpose of the visit is a very first introduction of the company, the objectives for the next years in the EU, and of the person, Art. 4(1)(b)
Art. 4(1)(b)
Art. 4(1)(b) based in Munich.

Through Daiichi Sankyo Europe GmbH (DSE) in Munich, the company has a solid presence in the European Union. The manufacturing facility in Pfaffhofen, Germany, is of strategic importance and contributes significantly to DSEs overall global production capacity. Indeed, the Pfaffhofen facility is its largest outside of Japan.

Our main agenda points for this first visit to Brussels are:

Framework for research in oncology in the EU: Oncology R&D is a key priority, and Daiichi Sankyo invests **Art. 4(2)(a)** of its yearly global revenue. Between 2021 and 2026, this is expected to result in a total of **Art. 4(2)(a)** of total investment. How can the EU and Japan work even closer together to maintain or expand the level of cooperation?

Trade Alliance Japan/EU/US: The EU – Japan economic partnership agreement entered into force on February 1, 2019. Japan and the United States have a free trade agreement as well. These agreements reduce trade barriers between, allowing for these major global economies to increase their economic competitiveness. Strategic economic partnerships are important in a globally volatile situation. How can the EU and Japan work even closer together to maintain or expand the level of cooperation?

I have attached a comprehensive overview of the companies set up and capabilities

Dear Elina, please let me know if you have any suggestions for meetings during these two days within your organization, or beyond.

Many thanks,

Art. 4(1)(b)
