Subject: Request for a meeting on digital regulations and the fight against Child Sexual Abuse

Dear Mr. Steng,

I hope that you are well.

I am reaching out to see if you have time to discuss the intersection of the ongoing revamp of EU's digital regulations, and namely the Digital Services Act and the fight against online Child Sexual Abuse Material.

Thorn is a US-based non-profit organization that builds technological solutions and infrastructure to combat child sexual abuse online. We are closely following the discussions in the EU regarding the Digital Services Act, the regulation of platforms, and Artificial Intelligence and we welcome the commitment of the Commission to defend the rights of the child and to tackle child sexual abuse material. We know that the process happening in the EU is of key importance as it will influence the regulatory efforts around the globe.

As the debate around the DSA is still ongoing, and ahead of the future long-term term legislation dedicated to fighting online Child Sexual Abuse Material we would like to talk with you about the crossover between theses regulatory endeavors and to share with you our analysis and expertise on online child protection

I'll be in Brussels from the 27th to the 30th of September, would you be available for a meeting ?

Thank you in advance for your time.

Best,
[redacted]
