Meeting with CEFIC 22 September 22 - revision of the Classification, Labelling and Packaging (CLP) Regulation

Participants:

- Personal data [REDACTED] CEFIC
- Personal data [REDACTED] Product Stewardship
- Personal data [REDACTED] Public Affairs
- Personal data [REDACTED]
- J. Pinto Antunes, Deputy Head of Cabinet, Wojciechowski

CEFIC presented their concerns regarding the ongoing revision of the Classification, Labelling and Packaging (CLP) Regulation. They shared the following key considerations from the European Chemical industry, ahead of the next regulatory steps:

- COM is not (has not) taking into account effects in all value-chain
- Use of Delegated Act is “pushing the envelope” legally speaking
- COM should pay attention to sequencing/relations with forthcoming “transition pathway for chemical industry”
