Hi [Redacted]

That looks EDPS press release looks good to us however, under the 'About the UK Information Commissioner' on page two please could we replace the section from the MoU with the following text:

"The Information Commissioner's Office (ICO) is the UK's independent regulator for data protection and information rights law, upholding information rights in the public interest, promoting openness by public bodies and data privacy for individuals.

The ICO has specific responsibilities set out in the Data Protection Act 2018 (DPA2018), the United Kingdom General Data Protection Regulation (UK GDPR), the Freedom of Information Act 2000 (FOIA), Environmental Information Regulations 2004 (EIR), Privacy and Electronic Communications Regulations 2003 (PECR) and a further five acts and regulations.

As so the time proposed of 10am UK / 11am Brussels on Thursday 9 November for the joint launch of the statements will be perfect for us.

Thank you for the quote from your Commissioner too, we've included this in our intended press release as well.

We will not be present tomorrow for the signing in Brussels, however we will be available via email here in the UK at the (virtual) office.

H A ,

ust for owing up on the MoU shared the other day (attached again for completeness) wanted to enquire if you have any preference around the comms for the signing?

We normally take a few pictures and then make the announcement on our social media platform but have also put a full statement on our website in the past to make more of an impact. Also on the other end of the spectrum we have on one occasion just signed the MoU and put it on our website with no big public notification.

Please let me know your thoughts as believe we are largely happy to be led by yourself about what ever you would like.

Hi Anna, [Redacted]

Please find attached the revised MoU between the EDPS and CO.

I've accepted your amendments and acknowledged where we have made changes requested. Also we've added Head of International as the relevant contact point and for parity maybe this should be Anna for EDPS? This doesn't exclusively mean that contact on your side goes via these individuals but just serves as a name at operational level.

Hopefully this can stand and agree to compete version and once this is agreed it can be finalized with all comments removed.

Any questions please let us know.

Hi Anna, [Redacted]

Thank you for speaking with me and [Redacted] just now, it's always great to connect.

As discussed, I have attached our MoU template and our Cooperation Plan template. We are by no means strict to these and they are just a helpful starter/guide. If you have any ideas or styles, you'd like to adopt for the MoU between the EDPS and CO we are very open to suggestions. Also, the Cooperation Plan is not a requirement and we don't have many of these active, but they are an additional level of detail we can include in our organisational relationship if needed.

Also below is a link to our list of MoUs (both national and international):

1.1 This Memorandum of Understanding ("**MoU**") establishes a framework for cooperation between

(I) The Information Commissioner (the "**Commissioner**") and

(II) The European Data Protection Supervisor (the "**EDPS**"),

together referred to as the "**Participants**". Any reference to the Commissioner shall include his statutory successors.

1.3 The Participants acknowledge that they have similar functions and duties concerning the protection of personal data in their respective jurisdictions.

1.4 The Participants highlight the unique geographical, cultural, and historical links between their jurisdictions, and the importance of consulting on, and taking account of, their respective regulatory activity in order to better protect individuals in the United Kingdom and in the European Union with respect to data processing falling under their jurisdictions and enhance compliance with laws protecting personal data.

- (c) Keep each other informed of developments in their respective jurisdictions having a bearing on this MoU; and

4.2 For this purpose, the Participants may jointly identify one or more areas or initiatives for cooperation. Such cooperation may include:

- (a) sharing of experiences and exchange of best practices on data protection policies, education and training programmes;
- (b) sharing of information about respective priorities for regulatory actions, including policy and enforcement priorities;

4.3 For clarity, it is acknowledged that this MoU does not impose any obligation on the Participants to share information with each other or to engage in any other form of cooperation. It is further acknowledged that a Participant may require that any cooperation is subject to certain limitations or conditions being agreed between the Participants. For example, in order to avoid breaching applicable legal requirements. Any such limitations or conditions will be agreed between the Participants on a case-by-case basis.

5. NO SHARING OF PERSONAL DATA

- 5.1 The Participants do not intend that this MoU will cover any sharing of personal data by the Participants.
- 5.2 If the Participants wish to share personal data, for example in relation to any cross border personal data incidents involving organisations in both jurisdictions, each Participant will consider compliance with its own applicable data protection laws, which may require the Participants to enter into a written agreement or further arrangements governing the sharing of such personal data.

6. INFORMATION SHARED BY THE UK INFORMATION COMMISSIONER

- 6.1 Section 132(1) of the DPA 2018 states that the Commissioner can only share certain information if he has lawful authority to do so, where that information has been obtained, or provided to, the Commissioner in the course of, or for the purposes of, discharging the Commissioner's functions, relates to an identifiable individual or business, and is not otherwise available to the public from other sources.
- 6.2 Section 132(2) of the DPA 2018 sets out the circumstances in which the Commissioner will have the lawful authority to share that information. Of particular relevance when the Commissioner is sharing information with the EDPS are the following circumstances, where:
- (a) The sharing is necessary for the purpose of discharging the Commissioner's functions (section 132(2)(c)); and
 - (b) The sharing is necessary in the public interest, taking into account the rights, freedoms and legitimate interests of any person (section 132(2)(f)).
- 6.3 The Commissioner will therefore be permitted to share information with the EDPS in circumstances where it has determined that it is reasonably necessary to do so in furtherance of one of those grounds outlined at paragraph 6.2 of this MoU. Before the Commissioner shares any such information with the EDPS, it may be necessary for the Commissioner to identify the function of the EDPS with which that information is intended to assist, and assess whether that function of the EDPS could reasonably be achieved without access to the particular

information in question. Where the Commissioner considers that any such function could reasonably be achieved without access to the information, it will not share the information unless it determines that there are overriding factors which render such sharing to be lawful and appropriate in all the circumstances.

7. INFORMATION SHARED BY THE EDPS

- 7.1 The European Data Protection Supervisor may exchange with the ICO all relevant information to the extent necessary for the exercise of its tasks and powers.
- 7.2 The Commissioner's statutory function relates to the legislation set out at paragraph 2, and this MoU governs information shared by the EDPS to assist the Commissioner to meet those responsibilities. To the extent that any such shared information comprises personal data, as defined under the UK GDPR and DPA 2018, the EDPS is a Data Controller in respect of such data and must ensure that it has legal basis to share it and that doing so would be compliant with the data protection principles.
- 7.3 Section 131 of the Data Protection Act 2018 may provide a legal basis for the EDPS to share information with the Commissioner. Under this provision, the EDPS is not prohibited or restricted from disclosing information to the Commissioner by any other enactment or rule of law provided it is "*information necessary for the discharge of the Commissioner's functions*".

8. CONFIDENTIALITY, SECURITY AND DATA BREACH REPORTING

- 8.1 Appropriate confidentiality and security measures will be agreed to protect information that is shared between the Participants. Such measures will, amongst other things, require the Participant receiving information (the "**Recipient**") to take into account the sensitivity of the information; to not use any such information for any purpose other than referenced in this MoU; any classification that is applied by the Participant who is sending the information to the other Participant (the "**Sender**"); and any other factors relevant to protecting the confidentiality and security of the information, such as any restriction

on access thereto or the use to be made thereof, in general or specific terms, including as regards its transfer, erasure or destruction.

- 8.2 Where confidential material is shared between the Participants it will be marked with the appropriate security classification by the Sender.
- 8.3 Where a Recipient receives information from a Sender, the Recipient will consult with the Sender and obtain their consent before passing that information to a third party or using the information in an enforcement proceeding or court case, save where the Recipient is prevented from consulting with the Sender or seeking its consent, by applicable laws or regulations.
- 8.4 Where confidential material obtained from, or shared by, a Sender is wrongfully disclosed or used by a Recipient, the Recipient will bring this to the attention of the Sender without delay.

9. REVIEW OF THE MOU

- 9.1 The UK Information Commissioner and the EDPS will monitor the operation of this MoU and review it if either Participant so requests.
- 9.2 Any issues arising in relation to this MoU will be notified to the designated point of contact for each Participant.
- 9.3 Any amendments to this MoU must be made in writing and signed by each Participant.

10. NON-BINDING EFFECT OF THIS MOU AND DISPUTE SETTLEMENT

- 10.1 This MoU is a statement of intent that does not give rise to legally binding obligations on the part of either the Commissioner or the EDPS. The parties have determined that they do not exchange sufficient quantities of personal data to warrant entering into a separate data sharing agreement, but this will be kept under review.
- 10.2 The Participants will settle any disputes or disagreement relating to or arising from this MoU amicably through consultations and negotiations in good faith without reference to any international court, tribunal or other forum.

11. DESIGNATED CONTACT POINTS

11.1 The following persons will be the designated contact points for the Participants for matters under this MoU:
