<p>Gotham) of the Single Point of Contact (SPOC) with the existing SIRENE case management system</p>		<p>all channels. In addition, case handlers have access to the necessary systems and case management systems. Under the internal procedures, searches will be made in Omnia/Elys II, which covers SIS and ASF, prior to opening a new case, in order to avoid duplicates and circulations going unnoticed. There is also an internal procedure for international circulations called Circulation procedures IP-SIRENE. The NCIS is working continuously to enable integrated working processes that ensure sound case handling.</p> <p>Interconnecting Omnia with SIRENE case management system has been considered, but we decided ot to do it now, due to cost issues and the fact that the SIRENE solution is relatively new and modern. The internal case handling procedures ensure that all ongoing cases, including SIS circulations, are handled properly.</p>
